Product Instructions

The heating vibration massage shoulder pad is made of high-quality neoprene material, with overheat protection design, comfortable and safe to use. Ergonomic designed, with long and short straps for more comfortable use.
Vibration massage combined with heat therapy provides complete muscle pain relief, relaxes muscles, reduces stress, and helps speed recovery from injury, while providing targeted relief for pain caused by frozen shoulder, joint dislocation, muscle sprains, shoulder stiffness and soreness.

Note: Our heating vibration massage shoulder pad can relieve pain, but not achieve a therapeutic effect.

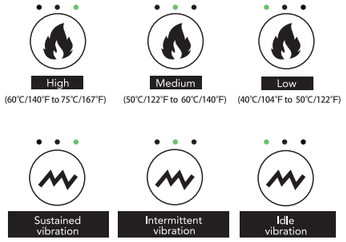
Product Parameter

1. Power Type

Charging Type	Output Voltage	Power	Charging Time
5000mAh Battery	5V/DC	7W	3 Hours

2. Controller Setting



Note:

1. Anti-mistouch Function: short press the switch to turn on the anti-mistouch mode, the anti-mistouch mode light flashes red, you will not be able to operate the screen massage; short press the switch again to turn off the anti-mistouch mode, the indicator light flashes green, You can operate the screen massage normally.
2. The number on the controller screen represents the temperature (°C) and the charge progress(%). When °C glows, the number represents the heating temperature. When the % glows, the number represents the charging progress; when fully charged, the screen displays "100%".

Cleaning and Maintenance

Unplug the power cord first, put it aside, then wash the shoulder wrap gently by hand, but be careful not to get the controller part wet, then lay it flat to dry. Do not use strong cleaners or hard brushes.

1. DO NOT wash the shoulder wrap by machine .
2. DO NOT dry clean to avoid damaging the heating element, it is recommended to use water below 30C (86 F) to hand wash.
3. DO NOT place the controller part and power cord underwater. If it gets dirty, wipe it with a soft cloth, then clean the surface with a mild detergent.
4. DO NOT expose the shoulder wrap to the sun or fire to avoid damaging the insulator heating conductors.
5. Disconnect the shoulder wrap from the power source before cleaning.
6. Make sure the shoulder wrap is completely dry before use.
7. When storing the device, please allow the device to cool down first, and then store the device in a clean and dry place. Be careful to lay the product flat.
